

## COMPLEMENTARY FEED FOR HORSES

### 1. Description

---

- White powder

### 2. Intended use

---

For horses:

- In periods of growth (fast growth): nutritional support
- Just started to work (young horses): light work
- Who suffer from extra pressure on the joints
- Next on Cavalor Arti Matrix.

Cavalor Arti Base contains the nutrients to keep the joints in good condition.

### 3. Directions of use

---

Mix through the daily ration for minimum 4 weeks.

- Ponies: 25g/day
- Horses (sport): 50g/day
- Maximum per horse: 200g/day

### 4. Product Features

---

- Hydrolysed collagen (obtained from porcine cartilage): is the basis for articular cartilage and hyaline cartilage. It makes up 50% of all protein in cartilage and 85-90% of collagen of articular cartilage. Hydrolysed collagen provides strength to the joint tissue.
- MSM: Organic form of Sulphur. Sulphur is important for muscles, joints, cartilage, bones and the blood; MSM is the best absorbable and biologically available source of sulphur. MSM is known to prohibit inflammatory effects.

- Glucosamine, chondroitin sulphate, Hyaluronic acid: Glycosaminoglycans are an important building block of ligaments, tendons, bones and synovia (synovial fluid).
- Vitamin C: Has an important anti-oxidant function and is important for the absorption of the active constituents.
- Organic trace Minerals: Play a role in the joint mechanism. Organic minerals are more bioavailable than inorganic.

## 5. Analysis

Crude Protein	24.3%
Crude Fat	0.03%
Crude Ash	18.2%
Crude Fibre	0.1%
Calcium	3.9%
Phosphor	1.8%
Vitamin C	20 000 mg/kg
Zinc	11 000 mg/kg
Manganese	11 000 mg/kg
Copper	1 250 mg/kg

## 6. Storage & Packaging

- Pail 2 kg
- Keep dry and at mediate temperatures
- Use until 2 years after production date
